The new Laser Distance Meter STABILA LE 50:

Exact measuring of facade scaffolding

Functions:

- ▶ Length, area, volume
- ▶ Incremental dimensions (addition), partial lengths (subtraction)
- ▶ Continuous measurement (tracking) with min/max display
- ▶ m/ft selection
- ▶ Memory
- ▶ Clear (return step)
- ▶ Backlit display

The benefits for you at a glance:

- ▶ Quick and accurate measurement
- ▶ Easy to use
- ▶ Range up to 100 m
- ▶ All important dimensions, e.g. for preparing quotation
- ▶ Handy, lightweight and sturdy
- ▶ Dust and splashwater protected (IP 54)
- ▶ Measurement and calculation in a single operation
- ▶ Easily visible laser dot even over long distances

single operation, both for length, area and volume calculations and for ascertaining incremental dimensions and partial lengths. Partial lengths for example are simply deducted from the total length using the subtraction function.

With only 2 AAA batteries, up to 10,000 measurements are possible, with the integrated memory saving the last 19 values. A dot diameter of 60 mm at a distance of 100 m means you have a laser dot that is easily visible even over this distance.

At the same time, the LE 50 is a handy and lightweight device (only 160 g including batteries) with a sturdy plastic housing that fits into every pocket.

Scope of supply:

Art. No. 4040.020
