

FEATURED JOB

Bovis Training Day

PC Scaffolding & Rigging recently demonstrated Layher Allround to Bovis Lend Lease Site Managers and Site Foremen, including propping, stair systems, temporary roofs, facades around curved structures, ramps and cantilevers. With Layher scaffolding, even complex spanning walkway scaffolds can be lifted safely and efficiently by crane. The focus was on safety with the various inherent safety features of the Layher Allround system as well as the Layher Advance Guardrail.

Robert McDermott of BLL said, "we were all very impressed with the capabilities of the Layher system including crane lifting the bridge and stairs. The feedback from our Site Managers and EH&S Managers was very positive."

Thank you to Savas Yucel of PC Scaffolding for the use of these photos.
