

# FEATURED JOB

## Orvad Offshore

Next time your guys complain about the weather you might like to remind of the conditions that some other scaffolders get to enjoy!

Orvad (WA) Pty Ltd scaffolded the underside of this helicopter pad on an oil rig off the coast of Taranaki, NZ. With the scaffold still in place the rig was towed through 10 m swells and 60 knots squalls to calmer Australian waters.

Our thanks to Paul Orvad for permission to use both these photos
