

FEATURED JOB

St. Andrew's Church on The Terrace

Scaffolding was required both inside and outside the historic St Andrew's Church on the Terrace, Wellington, New Zealand. Scafit erected this birdcage inside to enable contractors to carry out a new paint job.

External scaffolding was required for restoration of the facade as well as replacing the roof, earthquake strengthening and concrete repair and maintenance. The scaffold was finished off with this cantilevered banner erected with the help of T and Paul of Layher.

Thank you to David Crowley of Scafit for the use of these photos.
